

Perhaps this is the most important doctrine for the personal life of a Christian. Because of the neglect of knowing much about prayer, that is the reason why many believers are struggling financially, coveting the world, drawing farther away from the Savior, wondering why the Lord does not answer their requests, and losing the power of God. Without this practice, then we are in a mess of trouble! People like the New Agers, Catholics, Muslims, and Emergents follow the wrong ways of prayer, thus receiving no answers to their supplications at all. This study will cover questions such as, "What does prayer mean?" "What is the proper position to pray?" "Is it disrespectful to open my eyes while I am praying?" "Why doesn't God answer my prayers?" "What's wrong with praying to saints?" "Isn't yoga another form of prayer?" "What is the secret to get the Lord to bless my prayers?"
